

## Call for a Videographer

**The Client.** The Montana-based organization [Habitat X](#) facilitates a year-round collaborative platform for professionals who work in the North American high-performance housing industry. With a focus on research and strategic planning, Habitat X convenes a respected conference each year in Montana that attracts 40-50 [participants](#) for a three-day retreat. This year the conference will be held at Big Sky Resort on June 27-29, 2016.

**The Project.** We're currently seeking an individual who has the skills to film the upcoming event, and to produce a 2-4 minute video documentary that tells the story of Habitat X. This video will be used to recruit sponsors and participants for future events.

The filming would take place sometime between June 27th and 29th, though we prefer June 29th when the participants will be more prepared to discuss their impressions of the event. The location would be the Big Sky Conference Center and environs.

Our expectation is that the video would consist principally of interviews of participants, with B-roll of the general conference proceedings. But we're open to other ideas that you believe could help tell the story of Habitat X.

**Deliverable.** We expect that the outcome of this project will be a ready-to-use 2-4 minute video that can be delivered via the web. We would like to retain the rights to use both the finished video and all source files as we wish in the future, though we'll happily share those rights with the videographer for own their promotional or portfolio use.

**Compensation.** We can offer a combination of cash and in-kind donations to the right individual.

If you're interested in the field of sustainable, high-performance housing, attendance at the conference will be a bonus. We'd be happy to comp you for attendance at all three days of the event if you're interested.

We'd be happy to comp you a room at Huntley Lodge while you attend the conference.

Though we're a small bootstrap-funded organization, we'd like to offer sufficient compensation to attract the right person to this assignment. We'll pay \$1000-1500 for this project, depending on your experience and the relevance of your proposal. We'll pay 50% upon completion of the filming, and the remainder upon receipt of the final product.

**Your response.** If you're interested in this project, please send us a brief proposal that outlines the services you'd provide. This can be simple and informal, but if you can send us links to your recent work, all the better. We'll evaluate your proposal and reply within 48 hours.

Thanks for your interest. Feel free to contact either of us if you have questions.
